210 APA Homework HOW TO CREATE AN APA REFERENCE SECTION

Directions: Type out an APA formatted example for each item below – then identify each part of the reference by hand writing answers. For example draw arrows to appropriate part and label (identify) parts such as....author's last name, initial of author's first name, date of publication, title of book, etc.....

1.	Provide an example reference for a <u>book</u> – then identify each part.
2.	Provide an example reference for an $\underline{\text{electronic journal from a popular database}}$ – then identify each part
3.	Provide an example reference for a <u>journal article (non-electronic)</u> – then identify each part
4.	Provide an example reference for information taken off of an <u>organization's website</u> (note you are not referencing an article – you are simply referencing text off a home webpage – then
	identify each part.
